Wheels - Check wheel trueness, true and re-tension			○
Rebuild - Rebuild, regrease and lubricate			○

Important Info

To ensure we can turn your bike around as quickly as possible we ask that your bike is brought to us in a reasonably clean condition. Bikes that are overly dirty that need to be cleaned in order to service will incur an additional charge of £15.

Our workshop is incredibly busy and we need our storage space in order to continue to be able to offer great service. Bikes will be stored for 7 days free of charge after completion & confirmation of any work. Any additional time in storage will incur a charge of £10/day. When new parts are needed to complete a job or service we'll agree the cost with you before we carry out the work. Also please bear in mind that bikes are complex machines, some jobs may cost a little more depending on configuration and specification. We'll let you know in advance if that's the case.
